

MyHourly HRMS: Environment Variables

Secret manager variables

Secret Name	Variable	Secret?	Purpose
myhourly/db	DATABASE_URL	Yes	RDS PostgreSQL JDBC connection URL
myhourly/db	DATABASE_USER	Yes	RDS database username
myhourly/db	DATABASE_PASSWORD	Yes	RDS database password
myhourly/jwt	JWT_SECRET	Yes	JWT token signing secret
myhourly/storage	AWS_S3_BUCKET	Yes	S3 bucket name
myhourly/storage	AWS_ACCESS_KEY_ID	Yes	IAM access key for S3
myhourly/storage	AWS_SECRET_ACCESS_KEY	Yes	IAM secret key for S3
myhourly/ses	SMTP_USERNAME	Yes	Amazon SES SMTP username
myhourly/ses	SMTP_PASSWORD	Yes	Amazon SES SMTP password

Variables that should not go into Secrets Manager

Variable	Value / Example	Where to put
SPRING_PROFILES_ACTIVE	aws	ECS Environment
PORT	8080	ECS Environment
AWS_REGION	ap-south-1	ECS Environment

Variable	Value / Example	Where to put
<code>SUPER_ADMIN_EMAIL</code>	Your admin email	ECS Environment
<code>HR_EMAIL</code>	HR email	ECS Environment
<code>SMTP_PORT</code>	<code>587</code>	ECS Environment
<code>SMTP_STARTTLS_ENABLE</code>	<code>true</code>	ECS Environment
<code>SMTP_SSL_ENABLE</code>	<code>false</code>	ECS Environment
<code>PASSWORD_RESET_FRONTEND_URL</code>	Your HTTPS frontend URL	ECS Environment
<code>PASSWORD_RESET_EMAIL</code>	Verified SES email	ECS Environment
<code>ACCESS_TOKEN_EXPIRATION</code>	<code>9000000</code>	ECS Environment
<code>REFRESH_TOKEN_EXPIRATION</code>	<code>604800000</code>	ECS Environment
<code>PASSWORD_RESET_EXPIRATION</code>	<code>30</code>	ECS Environment

The configuration explicitly recommends keeping these non-secret settings in the ECS `environment` section.

In short: 9 variables → Secrets Manager, everything else → ECS Environment.
